

CHP FEASIBILITY AUDIT CHECKLIST

Want to know if our energy efficient solutions are feasible for your business?

At Evo Energy Technologies, we can provide you with a detailed analysis of your expected energy and CO₂ savings.

Simply provide us with the information listed below and an Evo Energy Technologies specialist will be in touch shortly.

Information required:

- Information on our business - including operating hours, size, layout, location
- 1 gas bill (1 month minimum, 12 months if available)
- 1 electricity bill (1 month minimum, 12 months if available)
- 30 minute interval data for electricity (if available from your energy provider)
- 60 minute interval data for gas (if available from your gas provider)
- Details of chillers
- Details of boilers (steam, hot water, pool heating)
- Details of space heaters
- Metering on any of the above equipment if available

What applications are required for your business:

- | | |
|--|--|
| <input type="checkbox"/> Hot water | <input type="checkbox"/> Space heating |
| <input type="checkbox"/> Steam | <input type="checkbox"/> Space cooling |
| <input type="checkbox"/> Water heating | <input type="checkbox"/> Pool heating |
| <input type="checkbox"/> Water cooling | <input type="checkbox"/> Pool cooling |

Email your information to info@evoet.com.au or contact us on 1300 859 933 if you have any questions.
